

MORE TIME FOR ART

This one week quality arts program allows children the time needed to explore and create in several media. Activities will include clay, painting, printing, drawing, and sculpture. We will have mini lessons to learn new techniques, and then an extended studio session each morning. After lunch, we will have an open art studio with opportunities for further exploration in areas that inspire them. Each session will end with an art show where we will share our creations! Materials are provided and each student will be given a tee shirt to be used as an art smock!
